

**PUBLIC INFORMATION CENTRE 3**  
**Sudbury Southwest By-Pass Four-laning**  
**Highway 17, GWP 5825-05-00**

Stantec Consulting Ltd. is carrying out a Planning, Preliminary Design, and Environmental Assessment Study for the four-laning of Highway 17 from Municipal Road 55 (middle junction), easterly to Highway 69 for 13.3 km. The purpose of this notice is to announce the third Public Information Centre (PIC) for this project.

The purpose of this Study was to identify a four-lane highway plan for the Sudbury Southwest By-Pass (Highway 17), with access restricted to interchange locations only. A four-lane controlled access highway will improve traffic safety and operations along this section of Highway 17.

The Study will develop a plan that will allow subsequent phases (detailed engineering and property acquisition) to proceed when improvements are needed, and allow development to occur where it will not impact the plan for future improvements to the highway.

A Public Information Centre to display and seek input on the Preferred Plan is scheduled for:

**Thursday, February 28, 2008**  
**at Fielding Memorial Park**  
**345 Fielding Road, Lively**  
**4:00 PM to 8:00 PM**

This study is a "Group B" project under the Class Environmental Assessment (EA) for Provincial Transportation Facilities (2000). A Transportation Environmental Study Report (TESR) will be prepared and made available for public review at the conclusion of the study. A notice will be placed in the newspaper announcing the start of the review period for the TESR.

If you wish to comment on this project, have your name added to the project mailing list or have any questions regarding the study, please contact:
